### CORBIN SENIORS HERE SATURDAY NIGHT

One of the peppiest hockey games of the season is promised for Saturday night at the local arena, where the Pass Junior Cubs, an aggregation picked from the best junior material of this district, will be opposed in a return game by the newly formed Corbin seniors.

The Corbin boys in the opening game tied with the Cubs and some real hockey was displayed. So come out on Saturday and boost them.

Robert Barrowman has been re-elected mayor of Lethbridge.

RIGHT REV. L. RALPH SHERMAN

The Right Rev. L. R. L. Sherman, Lord Bishop of the Anglican Diocese of Calgary, will be a visitor in Blaimore on Sunday next, January 11th. He will deliver an address on the famous Lumbeth Conference of 1893, 3 p.m., in the Parish Hall of St. Luke's church. The Parish Hall is situated opposite the Greenhill hotel, in the premises formerly occupied by J. E. Upton, tailor.

Every one who can attend this public meeting is invited to do so by the Rector and Wardens of St. Luke's, Blaimore, and St. Alban's, Coleman. The Bishop is an outstanding speaker and his address is sure to be interesting as well as instructive. The Bishop will also be the special preacher at the evening service at 7 o'clock in St. Luke's.

### OFFICERS OF K. of P. INSTALLED

A joint installation of officers of Edgington Lodge, K. of P., and Greenhill Temple, Pythian Sisters, was held in the lodge hall on Friday night last.

Master, Master, assisted by Sisters Gales and Moore, installed into office the following for Greenhill Temple:

Past Chief—Sister M. Stewart.  
M.E.C.—Sister Eoyle.  
E. Senior—Sister Veprava.  
E. Junior—Sister Montalbetti.  
Manager—Sister Wolstenholme.  
M. of R. & C.—Sister Fraser.  
M. of P.—Sister Senior.  
Protector—Sister Meffan.  
O. G.—Sister Oakes.  
Bro. T. Williams, assisted by Bro. Wolstenholme and Senior, installed the Knights' officers as follows:  
C. C.—Bro. T. Veprava.  
V. C.—Bro. T. Gale.  
Prelate—Bro. Montalbetti.  
M. of W.—Bro. J. Stewart.  
K. of R. & S.—Bro. Senior.  
M. of P.—Bro. J. Anderson.  
M. of E.—Bro. T. Williams.  
M. at A.—Bro. Claringburn.  
I. G.—Bro. Ed. Royle.  
O. G.—Bro. H. S. Mansers.  
After installation, a delicious repast supper was enjoyed by all. The rest of the evening was spent in dancing, etc.

### INSTITUTE PUBLIC LIBRARY

The other day Bobbie Bannan brought over twelve books, all in splendid condition, for the Library. Thank you, Bobbie. New books placed on the shelves this week are:

Fiction (juvenile)—"Ungava," by Ballantyne; "A Young Inventor's Pluck," by Winfield; "The Boy Next Door," by Clannon.

Fiction—"The Moccasin Maker," by Pauline Johnson.  
Non-Fiction—"Science Remaking the World," by Caldwell and Flossion; "Trail Makers of the North West," by Haworth; "Henry the 5th," by A. J. Church; "The Star of India," by Rose.

The Library is here to be of service to the citizens of this community. If you need books, join and let us serve you; if you don't need books, join and help us serve others. Fee \$1.00 yearly. Hours: Tuesday and Saturday, 7 to 9 p.m.

## Too much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acid, and at once. The symptoms, such as heartburn, gas, headache, etc., will disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillips and the word genuine in red.

### WORLD HAPPENINGS BRIEFLY TOLD

The first month's operations in the Alberta government's new department of lands and mines yielded a total revenue of \$138,203.

Alarm over the continued depletion of the halibut resources of the north Pacific is expressed in the seventh report of the International Fisheries Commission.

Tax on gasoline brought the province of Ontario \$10,756,000 for the year ending October 31, last, Ontario department of highways' figures show.

The British Museum announces discovery by its own and the University of Pennsylvania's expedition-tour, of tombs of the great kings of the third dynasty, dating about 2400 B.C.

Cigarette consumption in Germany amounts to \$2,800,000 yearly or about 500 to each inhabitant, while consumption of cigars reaches about 100 per person.

The recent visit of the Canadian trade delegation to the Orient was an immeasurable stimulant to trade relations, and should increase materially the imports and exports of China and Japan, according to G. I. Barr, general agent of the Canadian National Railways at Shanghai.

Among the Christmas gifts received by the Pope was an apparatus for recording dictation, by Thomas A. Edison. The pontiff, experimented with the machine and sent a message of appreciation to the inventor, whom he also awarded the annual Papi medal in gold.

A trans-Atlantic telephone service is now available between the British Isles and all parts of Canada and Mexico. Heretofore the service extended only to the principal cities of those two countries. With the new equipment, the service will connect England to all parts of North America, including Cuba.

### B.C. Police Use Radio

System Covers Territory From Alaska To International Boundary

Getting your man by radio is the new method used effectively on the British Columbia coast by the provincial police. Operating out of the most complete and successful short-wave wireless chains on the continent, the British Columbia police radio system has handled 3,600 messages, containing 180,000 words, at its seven stations in the first year of operation. Many smart captures are credited to the system, which keeps the headquarters in Victoria in touch with its far flung posts from the Yukon to the international boundary.

Ship-To-Shore Phones Busy  
The novelty of calling people on shore has been a happy one for fishermen off the Welsh coast since the installation recently of the ship-to-shore telephones at Cardiff and Swansea. They have kept the lines busy in calling friends. The service also covers vessels in dock, captains being able to telephone local owners, brokers or relatives at home for a total charge of 85 cents a day.

Misery loves company, but it is better to have rheumatism in one leg than in both.

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The Milburn Co., Ltd., Toronto, Ont.

### Veteran Mountie Dies in Italy

Captain Deane Was Superintendent Of Force At Regina In 1884  
Soldier, author and Royal North West Mounted policeman, Capt. Richard Burton Deane, age 82, who served with R.N.W.M.P. for 23 years and was superintendent of the force at Regina in 1884, died at Diano Mariana, Italy, on December 13.

Captain Deane, retired from the force in 1912 after writing a history of the R.N.W.M.P., and moved to England. Owing to a bad heart condition, he later moved to Italy, where he lived until his death.

Born in India, Captain Deane went to England at the age of four years and was educated there, completing his education at the military college at Sandhurst.

He joined the Royal Marines, was assigned to H.M.S. Warrior, on which he served for two years. After seeing service along the Gold Coast and other foreign waters for several years, he retired and came to Canada in 1882 with the idea of taking a commission in some Canadian regiment.

A year later he was appointed an inspector for the R.N.W.M.P. and in 1884 was appointed superintendent of the force and transferred to Regina. He later served at Calgary, Maple Creek and Lethbridge during times of trouble.

Among the honors won by Captain Deane during his long service are those gained during the Red rebellion and the coal mine lockout at Lethbridge. In 1885 he had charge of 812 and about 50 half-breed prisoners. In the Lethbridge lockout he brought the strike, which threatened mutiny, to a sudden close.

Among his published works was the first manual of the mounted police, which he wrote while he was inspector, and a history of the force.

### Will Treble Advertising

Cereal Firm Realizes Big Percentage Of People Able To Buy

A concern that sells cereal foods in packages announces that it will meet the challenge of depression by trebling its newspaper advertising during the coming year. It is confident that this expedient will result in sales sufficient to show an increase in business in 1931.

The reasoning followed by the heads of this cereal concern is sound. While there is much unemployment and reduction of revenues the great percentage of people on this continent are still in a position to live comfortably, to pay for their requirements, and to so conduct their affairs that the business community will enjoy a profit from his services.

But many firms are under the impression that the situation in that light. When their sales recede they are inclined to become fatalistic, making little effort to battle against adverse conditions. If they would balance up the figures of unemployed against those representing the employed they would find that there is still sufficient property in the community to keep their business successful if they will give the public in incentive to buy by relating an interesting story of what they have to sell.

Newspaper advertising is still the most effective stimulant for business. Its judicious use is the most competent means to attract the buying public. If the merchandise is right and is offered at reasonable prices there is still excellent buying power in the community.

It is not good procedure to let the season pressures fall on the temperature is low. That is when the extra force is needed. Just so the merchant can attract trade in dull times by keeping his public better informed on what he has to sell.

### And It Pays

Highest advertising rate of any periodical in the country is charged by Ladies' Home Journal, which is \$9,500 for a full page. Woman's Home Companion rate is \$9,400; Detective, \$9,200; Pictorial Review, and McCall's Magazine, \$8,800 each; Saturday Evening Post, which has largest circulation, \$8,000; Collier's, \$5,500; True Story, \$4,500; and Liberty, \$4,250.

### Seeks Naturalization

Hamilton, Ont.—After residing in Canada for 75 years, John Henry Roung, a native of Germany, filed application for naturalization papers and Judge Thompson has favorably reported on his case to Ottawa officials. Roung came to Canada in 1855.

### Estimated Wealth Of Prairies

The total estimated wealth of the Prairie Provinces is \$7,380,000,000, according to a statistical report published by the Industrial Development Board of Manitoba. This is 25.51 per cent. of the Canadian total.

### Honor C.P.R. Official

At the annual meeting of the Police and Fire Chiefs' Club of the Montreal district held recently, A. Hector Cadieux, assistant chief of the investigation department, Canadian Pacific Railway, was elected president for the ensuing year. The election demonstrates the close and harmonious relation between C.P.R. police and the city force for the protection of life and property in the metropolis of Canada. A week later Mr. Cadieux presided at the fifth annual banquet of police and fire chiefs held at the Place Viger Hotel at which His Honor Camille Houde, Mayor of Montreal, was the guest of honor.

### Canadian Method Approved

Doctors Of Europe Commend Idea Of Expert Anaesthetists

Canadian scientists are now recognized the world over and particularly in Europe. Dr. Pierre Z. Rheume, delegate of the Association des Medecins de Langue Francaise, from Montreal to the Paris convention of La Societe de Chirurgie Francaise, stated upon his return from Europe.

Important technical knowledge had resulted from the convention held in Paris, Dr. Rheume said, but the most pleasing and the most interesting was the commendation of the Canadian method of making use of specialist anaesthetists. The services of these experts are often used but the presence of nurses and internes is always considered as necessary in other countries of the world.

### Advice Of Indian Chief

"Stay awake to live long," is the advice of Chief White Horse Eagle, who claims to be 109 years old. He gave it to newspapermen, as he stopped in Chicago on route home to the Ojibwa Indian territory in California, after a visit to Europe. "I only sleep four hours a day," he said. "People sleep too much; makes the blood sluggish."

### Canadian Petroleum

The chief petroleum producing areas in Canada are the Turner Valley field in Alberta; and the Petrolia and Enklington, the Oil Springs, and the Bowdoin fields in southern Ontario.

### SUNDAY SCHOOL LESSON JANUARY 11

#### THE CHILDHOOD OF JESUS

Golden Text: "Jesus advanced in wisdom and stature, and in favor with God and men."—Luke 2:52.  
Lesson: Luke 2.  
Devotional Reading: Isaiah 11:1-9.

#### Explanations and Comments

The Development Of Jesus, verses 40 and 52.—With these words compare and contrast the words by John the Baptist, the last words of our lesson last week. Like every one who has ever lived, Jesus began His life as a helpless infant, and like all normal children His powers developed gradually. As a child he grew physically and waxed (grew) strong; as He increased in wisdom and stature, so he grew spiritually, in favor with God and men. He had a gradual development until He attained a perfect manhood. At each stage he was perfect for that stage, but the perfect of a child is inferior to the perfection of a man. It is the difference between innocence and perfect holiness.—Alfred Plummer.

As you know, the Child Jesus at once by a halo round his brow. There was no glory in His real life to mark Him; no glory in His life after years his brethren thought his fame strange, and his townsmen rejected Him. Gradually and gently life woke to consciousness of life and its manifold meanings; gradually, and not at once, He embraced the sphere of human duties, and he woke to His earthly relationships one by one—the Son, the Brother, the Citizen, the Master. It is a very deep and beautiful and precious truth that the Eternal Son of a human and progressive childhood.

An Incident in the Childhood Of Jesus.—Believe that the law of Joseph was the father of Jesus, and so Luke speaks of Joseph and Mary as the parents of Jesus, and notes that every year at the feast of the Passover they went to Jerusalem. Three times in this chapter Jesus is referred to as the father of Jesus. Dr. Garvie explains that Joseph is rightly called one of Jesus' parents, for in the home he provided for him, filled a parent's place and played a parent's part. To him God committed a trust and a task.

Women were not obliged to attend the Passover, but Mary accompanied Joseph on his annual pilgrimage, and when Jesus was twelve years old He went with them. As a "Son of the Law" He was subject to its obligations respecting feasts, fasts and the like.

Unknown to them, Jesus tarried behind in Jerusalem, and they went a day's journey toward Nazareth before they missed Him, for they supposed He was with kindfolk or acquaintances in the same caravan.

Joseph and Mary spent part of one day hunting for their boy in the caravan, another day in returning to Jerusalem, and on the third day they found Him in the temple. There were rooms off from the temple courts where teachers and Doctors of Law, were wont to meet their pupils, expound the law, and answer questions. Here, among the teachers and pupils, Joseph and Mary found the lost boy, listening and asking questions which showed such understanding that all were amazed.

Mary, too, was astonished. Dr. A. B. Bruce suggests that her astonishment points to some contrast between a previous quiet, reserved manner of Jesus and His present bearing, which was a sudden flashing out of His inner life.

A field of alfalfa in Nevada which was planted 27 years ago is still producing seed.

### To Solve Origin Of Human Race

British Scientist Goes To Africa To Discover People Of Dual Sex

Dr. Arthur Huxford, of London, England, a fellow of the Royal Society of Great Britain, has announced plans for an expedition in February to Africa, in which he said he hoped to determine the origin of the race.

"We will try to reach a people of dual sex we believe live near Lake Chad," he said. "My interest first was aroused when I encountered some of these peculiar people in Nigeria in 1924."

I tried at that time to reach Lake Chad but was forced to turn back when advance members of my party were killed by a fierce tribe of desert nomads. I was halted again in 1926 by desert storms.

It is my belief that the original human being was a person of dual sex. The influence of climate, the necessity of making a living and the need of looking after children, to my point of view, caused the division of the first beings into two sexes. We hope to prove the long existence of these peoples by unearthing skeletons.

### Canadian Sheep Breeders' Association

Announcement Is Made Of Election Of Directors For 1931

Mr. R. W. Wade, secretary of the Canadian Sheep Breeders' Association, announces that the mail ballot closed December 15th, 1930, selecting directors for the Maritimes; Manitoba; Saskatchewan; Alberta and British Columbia, resulting as follows: Maritimes Provinces, A. S. McDonald; Judique North, N.S.; Manitoba, George Gordon, Oak Lake, Man.; Saskatchewan, W. C. Heron, Hinton, Sask.; Alberta, John Wilson Sr., Inistial, Alberta; Geo. H. Ball, No. 2, Strathcona, Alberta; British Columbia, Leonard Higginson, No. 2, Sardis, B.C.

The directors for Ontario and Quebec will be elected at the Provincial annual meetings of the Sheep Breeders' Association taking place in February.

### May Eliminate Deadly Gas

Inventor Claims New Device Will Remove Menace Of Carbon Monoxide

Virtual elimination of carbon monoxide is claimed from a carburetor invented by John Juhasz of New York.

The device also permits the use of gasoline, kerosene or fuel oil in any automobile, motorboat or other internal combustion engines, it was reported by industrial physicists and engineers to whom it was submitted. It has three carbureting chambers instead of one, with a separate nozzle in each, and five outlet holes in each nozzle.

Many folks who think they're aboard the elevator for heaven will never get past the mezzanine floor.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

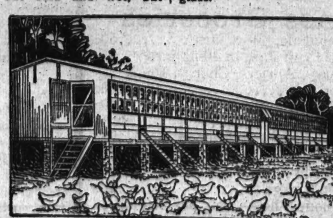

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE  
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

## THE PROHIBITION PETITION.

The Prohibitionists, who are circulating a petition throughout the Province, calling for a vote on the question of doing away with the beer parlors and clubs as at present operated and establishing beer distribution by government vendors, are not meeting with the hearty reception they anticipated.

The people of Alberta generally are satisfied that the present system of handling the liquor situation is the best that has yet been in force in Alberta and are not prepared to go back to a system which made bootlegging a profitable business.

Alberta is at present locked upon, from one end of Canada to the other, as having the best liquor laws in the Dominion and our hotels are recognized as of a particularly high standard. This condition has been brought about by the fact that the present liquor laws have the hearty support of the people.

We can see no necessity at the present time for a change, when the vast majority of the people are satisfied.

The signing of the petitions that are being circulated will mean bringing on a vote of the people on a question, which for the present should not be disturbed. Before signing this petition just think back to the day when liquor was procurable in not only one place in the average town, but in a dozen places and Oh! what places these were. Today we know where the beer parlors are and we know that if they are not properly run they will be closed up. Our hotels today in Alberta are properly run and one is sure of a clean bed, a good meal and decent service. Think this over.—Ex.

## COURTESY CAMPAIGN

IN VANCOUVER

The Vancouver Sun describes the launching of a campaign by the United Commercial Travelers in that city with the avowed object of encouraging courteous driving. The travelers are intimately in touch with the day-to-day traffic conditions, and their 700 members are in an excellent position to carry on a community campaign to encourage courtesy. In the course of their duties calling on the retail trade, members of the U.C.T. are constantly covering the Greater Vancouver area and the main highways.

With the co-operation of the Vancouver Sun, the U.C.T. members will make a note of all instances of courteous driving, and will award courteous drivers an honor seal sticker to be affixed to the windshield. The educative force of 700 men encouraging courteous driving by example and by rewarding observed instances will be a great step forward, the Sun thinks in minimizing the number of accidents on streets and highways in that area.

## CANADA'S NEW YEAR CREED

BY HON. H. H. STEVENS

Read this creed, and adopt it as yours, as a contribution from you to ward a better 1931:

"I believe in Canada.

"I love her as my home.

"I honour her institutions. I rejoice in the abundance of her resources.

"I glory in the record of her achievements. I have unbounded confidence in the ability of her people to excel in whatsoever they undertake. I cherish exalted ideals of her destiny as a leader among world nations.

"To her I pledge my loyalty. To the promotion of her best interests I pledge my support. To her product, I pledge my patronage. And to the cause of her producers I pledge my devotion."

## CORBIN HAPPENINGS

A very enjoyable dance was given by the I.O.O.F. lodge members on New Year's Eve in the Club hall. A five-piece orchestra from Fernie supplied very excellent music throughout the evening. Every dancer, was given a fancy cap, to add to the festive appearance of the occasion, and just as the whistle blew at midnight to herald in the New Year, all present joined hands and sang the old never-to-be-forgotten song, "Auld Lang Syne." A very tasty supper was served at twelve, after which dancing was continued till three o'clock.

On Saturday last, Miss A. Wisen returned from Rossland, where she spent the Christmas holidays visiting relatives.

Sunday saw the last of the high school students travelling back to Fernie, to continue their studies on into the new year. Among those who left were: Mae Parsons, Billy Wara-beck, Bubbie Elliott, Roy Taylor and Tommy Ferryman.

This week saw the beginning of the Corbin hockey season, and as this is the local boys' first appearance on the ice together, they showed good form to hold their opponents to a 3-3 draw. The Blairmore Cubs showed some nice combination, but could not seem to break through the stone wall defense of Gardiner and Falconer who broke up every attempt to get in close on the goal. Early in the first period, Jim Joyce broke away with a spectacular piece of stick handling and made a nice shot from the blue line to register the first counter for Corbin. The period ended with both sides playing eagerly for the next marker. All through, the game was very clean and not one penalty was handed out. The second period was mostly notable for its open play and individual rushes, that got nowhere, and Blairmore were lucky to even the score on a lucky shot. Score at end of second period 1-1. Early in the third period, Corbin again took the lead, when Gardiner followed up a rebound off the Cubs' goal-keeper's pads for a sure score. In less than five minutes, the Cubs again drew even on the best piece of combination play witnessed in the game. Jimmy Joyce came to the front for Corbin, but the Cubs again evened the score, with less than three minutes to play. Both teams went all out, but were a little too anxious when close to the goal, most shots going wild. Final score 3-3. Teams were made up as follows:

Cubs: Watson, A. Morris, J. Lomas, L. Atkinson, Richards, Nick Wasow, Joe Morency, John Morency and H. Thompson. Corbin: Russell, Gardiner, Falconer, Sisker, C. Joyce, J. Joyce, Hoffman, Hunger and McVey.

In twenty-two years of operating as a coal camp, this is the first time that a visiting hockey team has entered this town; but from now on, watch your newspaper if you are not lucky enough to be able to see for yourself and you will see the name of Corbin and Corbin hockey team starting at the top of the headlines of your favorite sporting sheet. This week has seen the start, but by no means the finish, of one of the best bunches of strictly amateur athletes that it has ever been the good fortune of Crows' Nest Pass citizens to see in action. Although the start has been delayed this year until such a late date, on account of both weather and slow process of building an arena, there is yet time for these boys to show the entire district just what can be done, even at short notice. Of course, other places cannot expect to duplicate the performance of these athletes, as no other place in this district has such promising material to work on. These boys still have time to put Corbin on the map before springtime's sunny smile steals away the ice.

## BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, January 11, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

Report from Jack McPhail and Peter Farmer on the eleventh annual Boys' Parliament. Classes as usual.

2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

Subject: "In All Things be Men."

Monday, 7:30 p.m., Y.P.S. executive meeting.

Tuesday, 7:30 p.m., a trip to the "Land of the Midnight Sun," by Rev. R. W. Hilbert, M.A., B.D. Admission 25c and 10c. Proceeds for the Missionary and Maintenance Fund.

Wednesday, 7 p.m., V.I.; Thursday, 7 p.m., Trail Pangers; Friday, 7 p.m., T.C.'s.

## T. LUKE'S CHURCH, BLAIRMORE

Services for Sunday, January 11th.

Sunday school in the Parish Hall at 10 a.m.

Even Song at 7 p.m., at which the special preacher will be the Lord Bishop of Calgary.

All abroad for Coleman Friday night.

Mr. and Mrs. M. Joyce were down from Corbin to see last night's hockey game.

Horace Vaughn is visiting for a few days with his parents, enroute to the eastern States.

Did you know that water is composed of two gases? Well, there's oxygen and hydrogen. Oxygen is pure, while hydrogen is gas and water—a very popular mixture.

Pressure of business has forced Mr. Colombo, of the People's Bakery, and ice cream parlor to make an extension, whereby he now occupies the rear half of the adjoining store premises, into which he last week moved his baking apparatus. Later on the ice cream parlor and confectionery will be extended to occupy the entire main store.

LEAGUE WILL COST \$6,000,000

It will cost \$6,104,561 to run the League of Nations and associated organizations for the next 12 months, according to the League Budget just issued. Canada's share of this total is \$216,696. Great Britain will contribute \$650,080, being by far the largest single contributor.

Australia will pay \$167,163; New Zealand \$61,912; South Africa \$92,568; Irish Free State \$61,912; and India \$348,700.

France and Germany with joint payments of \$489,107 each, are the largest contributors after Great Britain. Fourth and fifth come Italy and Japan, with payments of \$371,474 each.

Fifty-six nations are listed, paying in aid to the number of units they are rated at by the League. The smallest individual contribution is \$6,191, which is the assessment on such small members as Guatemala, Haiti, Honduras and Liberia, etc.

Of the total budget, which is figured in gold francs, \$3,418,217 is set aside for the expenses of the assembly, council, secretariat and special organizations. The International Labor Organization is then allotted \$1,723,350. The Permanent Court of International Justice at The Hague gets another \$642,558. Pensions account for \$200,155 and another big account is \$434,164 for buildings at Geneva.

## COWLEY HAPPENINGS

Harvey Buthiller left with a carload of horses on Monday for Montreal. He will pay a visit to his parents while there.

Little Bunchy Prier was a patient in the Hillcrest hospital on Monday, when she had an operation for adenoids.

Mr. and Mrs. Archie Swart and Netta and Gordon have returned from Lethbridge, where they spent New Year's Day.

Miss Edna Fulton has returned to Calgary, where she is employed as teacher, after spending the season's holidays here with Mr. and Mrs. H. C. Morrison and friends.

Miss Helen Morrison has returned to Edmonton, where she will continue with her schooling at Varsity, after spending the holiday season with her parents and family here.

Mrs. I. Christie entertained the Ladies' Bridge Club at her home on Tuesday night.

Miss Bridget Burn, of Lundre, who had the misfortune to get her arm broken while skating on Christmas Day, is making satisfactory progress toward recovery.

Mr. and Mrs. Turner returned to their home in Calgary on Saturday, after spending a few weeks visiting here.

Miss Mary Drewry, of Calgary, has been visiting with friends in the district for the past several weeks.

Everybody is rejoicing over the fine weather, which still continues.

Norman Kaye left on Sunday night for Calgary, where he is attending the school of technology and art.

Miss Bertha Kaye returned to Blairmore on Sunday, where she is employed as dressmaker.

Heck and Lou Lemire and families, and Leo Burrassa and family, spent New Year's at their parents' home in Macleod.

Father O'Dae spent the first of the year in Macleod.

Emile Diamond was a New Year visitor to Macleod.

Miss Isobel Morrison has returned to Waterton Park, where she is employed as teacher.

Mr. and Mrs. Emil Blas are rejoicing over their first opportunity of being able to boast of being "Grand Folks." At that, they are to be congratulated—all of 'em.

Robin Hood  
FLOUR

For All Home Baking

Fernie's share of liquor profits for the year 1930 amounts to \$4218. Some women contrive to look young; others dye in the attempt.

General Motors announces a  
NEW CHEVROLET SIX

Bigger... Finer  
Lower in Price

TODAY General Motors and Chevrolet are proud to present a new Chevrolet Six. The new car has a lengthened, 109-inch wheelbase... beautiful new bodies by Fisher... de luxe wire wheels... and important mechanical improvements. Yet it sells at new reduced prices... the lowest at which any Chevrolet has ever been introduced.

With all its new beauty and added value, no departure has been made from the basic principles of six-cylinder operation and extreme economy which have won 2,000,000 owners to the Chevrolet Six... and made Chevrolet the world's largest-selling six-cylinder car.

Bigger—finer—lower in price... the new Chevrolet Six is now on display at the show-

SPECIAL SEDAN—A de luxe car... de luxe wheels, two 16" tires, and chrome-plated radiator grille standard equipment.

rooms of dealers everywhere.

Come and drive this bigger, finer Six today. If you can afford to buy any car... the new Chevrolet Six, at its extremely low prices, is easily within your reach.

The GMAC plan of deferred payments offers the lowest financing charges available... and the General Motors Owner Service Policy pledges lasting satisfaction.

Taxes, license and spare tire extra.

The NEW  
CHEVROLET SIX

## New Chevrolet Bigger and Finer

### HANDSOME 1931 MODELS

Here is what the new Chevrolet looks like at its first public showings now being held across Canada. There are nine body types, the five-window coupe at the upper left being an addition to the line. Below is the standard sedan which shows the large, roomy effect achieved by lengthening the wheelbase to 109 inches. Wire wheels

are standard equipment. Upper right shows the changed front view, the higher radiator, the chrome-plate tie-bar which arches between the headlights, and the new horn mounted below the left headlamp. Prices of the new Chevrolet are lower than those at which the 1930 models were introduced.

### THE PASS SIXTEEN YEARS AGO

(The Blairmore Enterprise, 1914)

Nov. 27.—Two miners, William Thomas and Pacific Smette, were killed at Hillcrest mine by the snapping of a cable on Friday last.

The marriage of Miss Adella Albert, sister of Mrs. D. C. Drain, to Mr. N. E. Popham, of the Alberta Government Telephones repair department, was solemnized on Saturday last by Rev. J. F. Hunter, of the Baptist church. The young couple have taken up residence at Pincher Creek.

The old British battleship "Bulwark" was blown up by her own magazine at Shermans on Wednesday last week, entailing a loss of over 700 lives.

The store and residence of Mrs. J. B. Rudd, at Maple Leaf, were completely destroyed by fire last week.

The marriage of Mr. Glen Bowerman, of Cowley, to Miss Alice Chadwick, of Lundbreck, took place on Thursday last.

The marriage took place at the Presbyterian parsonage on Wednesday last, of Mr. Daniel Walker to Miss Christina Revie, Rev. W. H. Muncester officiating.

Flags were at half mast throughout The Pass this week, out of respect for the late field marshal, Earl Roberts.

Dec. 4.—The officers of Blairmore Lodge I.O.O.F. were elected on Tuesday night as follows: A. Morency, J. P.G.; H. G. Bigelow, N.G.; H. C. Benson, V.G.; J. B. Harner, R.S.; J. F. Hunter, F.S.; H. E. Lyon, treasurer. On Wednesday night, Encampment officers were elected as follows: H. G. Bigelow, P.C.P.; J. Montalberti, C.P.; J. McPhail, H.P.; A. Morency, S.W.; W. Willis, J.W.; W. J. Bartlett, R.S.; H. G. Benson, F.S. and treasurer.

Maria, beloved wife of William Adlam and mother of William, Leonard, Walter and Robert Adlam and Mrs. J. A. McDonald, died at LadySmith, B.C., on November 28th, aged 64. The remains were brought to Blairmore for interment.

Rev. David Ross, of Lethbridge, occupied the pulpit of the Baptist church here on Sunday last.

A son was born to Mr. and Mrs. A. May at Bellevue during the week. Similar luck fell to the lot of Mr. and Mrs. Allan Hamilton.

Order No. 3, of the Minimum Wage Act, as it applies to female workers employed in hotels has ceased to apply to hotels in Alberta, other than those located in Calgary, Edmonton, Lethbridge, Medicine Hat, Red Deer, Wetaskiwin, Blairmore, Coleman, Cardston, Camrose, Drumheller and Redcliff.

### "BARDNERS"

(From The Enterprise, 1914)

Gott, Gott, dear Gott, attention please,  
Your bardener Villhelm's here,  
And has a word or two to say  
Into your private ear.  
So, durn away all udders now,  
And listen vell to me;  
For vat I say concerns us much—  
Meinself and Shermany.

You, know, dear Gott, I vas your friend,  
And from mein hour of birth  
I quietly let you rule de Heffen.

Vile I ruled o'er de earth.  
Und ven I toldt mein soldiers  
Ov by-gone battle days,  
Und gif you 'alt de braise.

In effry vay I tried to brove  
Mein heartd to you vas drue;  
Und only claimed mein honest share  
In great deeds dat ve do.

You could not haft a better vrend,  
In sky or land or sea,  
Dan Kaiser Villhelm number two,  
De Lord ov Shermany.

So, vat I say, deqr Gott, is dis—  
Dat ve shouldt still be vrend;  
Und you shouldt help to send my voes

To meet deer bitter epds.  
If you, dear Gott, vill dis me do,  
I'll nothing ask again;

Und you und me vill bardners be  
For effernore—Amen!

Und listen, Gott, it must be quick,  
De help to me you send,  
Or else I haft to stop attack  
Und only blay defend.

So, your und twenty hour I giff  
To make de Allies run,  
Und put me safe into mein blace—  
De middle ov de sun.

If you'll do this, I'll do my bart—  
I'll tell de world de fact;  
But if you don't den I must tink  
It is a hostile act.

Den var at voice I vill declare,  
Und in mein anger rise,  
Und send mein zeppelin ships to wage  
A vight up in de skies.

Dis ultimatum, now, dear Gott,  
Is van ov many more—  
Mein mind is settled off to clean  
De whole world off de floor;

Because you vas mein bardner, Gott,  
An extra chance is giffen—  
So help at voice, or else I'll be  
De Emperor of Heffen.

The class was studying magnetism;  
"Robert," asked the professor, "how  
many natural magnets are there?"

"Two," said the surprising  
answer.

"And will you please name them?"  
"Blondes and brunettes, sir."

### GETTING OUT A NEWSPAPER

"Getting out a good newspaper is a fascinating task, but it is also a difficult one," stated the Redwood (Minn.) Gazette. "No other job that comes to mind is quite so taxing, so hurried, or demands greater pains. From the moment a newspaper is started, the work is carried on under pressure, a race against time. Put yourself in an editor's position—could you do it?"

"Could you, for example, spell correctly, offhand, the names of a large percentage of the residents of this town? If you could do that, could you write their initials correctly without resorting to the telephone directory or other authority?"

"Could you write down, offhand, the names of your city officials, your local school board, your county officials, your leading state and national officials, getting all the names, initials and offices correct?"

"Could you gather the threads of a story from half a dozen persons and weave them into an intelligent, readable account of the first writing?"

"We won't tire you—but if you could do these few simple things and of material of 1200 or 1400 words a thousand and one more difficult ones, you should be a newspaper editor after year, and when you had

finished those, sound out three or four columns more before press time? one can produce a newspaper only

## Have Your Name Taken Off The Prohibition Petition

What reasons were given when you were asked to sign the Prohibition Petition?

Many who have signed now regret doing so. They have changed their minds. The facts are different to those given.

Misrepresentation of purpose has been practiced in many parts of the province and the truth puts a different light on things.

## You Can Have Your Name Struck Off The Prohibition If You Like

Write to

W. W. Howe, Secretary,  
Moderation League of Alberta, Inc.,  
10012, 101A Avenue, Edmonton.

and your request to have your name withdrawn will be taken care of through the proper channels. Do this Now.

## Do Not Sign the Petition

## MODERATION LEAGUE OF ALBERTA

INCORPORATED

"In writing a headline, could you after continual diligent study and call to mind in a moment enough years of experience. You have heard synonyms so that you would not re- dozens of persons remark that they peat the main thought in the same words?"

"Could you judge in a minimum of time what size headlines, and what position in the paper could be given to each of the hundreds of stories that might go into your paper?"

"Could you decide in a moment, or exercise 'snap' judgment, on the dozens of questions a newspaper man must face daily and get a majority of them correct?"

"We won't tire you—but if you could do these few simple things and of material of 1200 or 1400 words a thousand and one more difficult ones, you should be a newspaper editor after year, and when you had

finished those, sound out three or four columns more before press time? one can produce a newspaper only

The marriage of Miss Helen Gray, of Coleman, to Mr. Robert Pryde, of Hillcrest, took place at Lethbridge on Friday last, Rev. Roy Taylor, B.A., officiating.

## The Fight For Peace

Living, as we do, in the fourth decade of the twentieth century of the Christian era, and more than twelve years after the close of the war to end all war, the huge armaments maintained by the more civilized countries of the world continue to be a menace to the future peace of the world, and to falsify the many professions of "a will to peace" voiced by the leading statesmen of the world.

Great as the inconsistency of all nations appears to be, the inconsistency, in fact the blatant hypocrisy, of Soviet Russia stands out over and above all other countries. Here is a republic, a people's government, founded as a result of a revolt against the militaristic government of the former Czar, preaching the doctrine of world brotherhood, yet maintaining and rapidly increasing the most powerful army in the world.

Recently one of the important illustrated papers in Berlin, Germany, presented pictorially the relative strengths of the armies of Europe and the extent of their war equipment. It reveals the fact that the present peace strength of the Russian army is 1,200,000 men, or almost double that of the next largest European army, that of France with 650,700 men. Italy coming third with about the same number, 638,300.

Russia, with its 1,200,000 able-bodied men withdrawn from productive occupations, is, at the same time, short of man-power to carry out its ambitious five-year programme, and we find Pravda, the official organ of the Communist Party, urging the recruiting of women as one means of solving the Soviet Union's growing labor problem. More than 2,000,000 additional workers are needed in 1931, says the official Government organ, to carry out huge projects of the five-year plan. After pointing out that six million women are engaged in household duties in Russian cities, it advocates securing the required labor from this source, while 1,200,000 men are kept "marking time" in a so-called peace-time army. What a travesty, what a tragedy! What denial of all the principles for which the Communist party throughout the world, with its denunciations of capitalist governments supported by armies, professes to stand.

And how is this huge Russian army equipped? With 600 heavy guns, or 200 more than Great Britain; 2,400 light guns, or more than any other country in the world, and 700 more than Great Britain; 23,000 machine guns, or 10,000 more than Great Britain; with 250 tanks, compared with 200 in Great Britain; and 1,400 war aeroplanes, or only 147 less than Great Britain, with its world-encircling empire to patrol and defend.

And whom has Russia to fear? Her nearest and most powerful neighbor, Germany, was disarmed by the Treaty of Versailles, left with an army of only 100,000 men for the maintenance of peace at home, permitted to have no heavy guns, only 288 light guns, less than 2,000 machine guns, no war aeroplanes, no tanks.

And because Communist Russia maintains, and is increasing and strengthening its huge army, and conducts a persistent propaganda in other countries against all forms of established government except their own, and continues to preach a world revolution, the other nations of Europe feel they, too, must remain armed to the teeth. The result is that Europe remains an armed camp.

The Great War taught us that, removed though Canada may be from the Old World nations, we cannot be indifferent to the situation existing. Should the scourge of war again sweep Europe, we, too, would be the sufferers. It cannot be otherwise.

The greatest present guarantee of the maintenance of peace is to be found in the League of Nations. It has prevented more than one outbreak since 1918. The real strength of the League of Nations is to be found in another league, the British Commonwealth of Nations. They are the backbone of the greater world league.

Maintenance of the League of Nations costs Canada approximately a quarter of a million dollars a year. Some people think it costs us too much, but what is a quarter of a million annually for ten million people in comparison to the annual cost to them resulting from the Great War in national debt, pensions to disabled men, soldiers' hospitalization, settlement schemes, and sundry other expenses running into millions of dollars annually?

Every Canadian, therefore, should be an enthusiastic supporter of the League of Nations. No vote of money by Parliament should be more heartily approved than the vote to maintain the League. Not only so, but every Canadian should be a booster for the League, and should exert his or her personal influence to the end that Canada will always be found to be one of the staunchest upholders of the League of Nations at all times.

### Met the King and Queen

Granny Peters Never Thought She'd Live To See the Day

Granny Peters has lived all her 77 years in the mean streets of London's east end—and her cup runneth over. For she has met the King and Queen, had a cup of tea with the Queen and Princess Mary, shaken hands with Prince Desirée and now she has shaken hands and had a talk with the Prince of Wales.

The Prince, visiting the settlement, saw a movie of Granny being presented to the Queen. "I'd like to meet her," he said.

"I never thought I'd live to see this day," wept Granny.

Good judgment is the basis of all success.

### Built For Missionary Work

Contributions Of Children Paid For Cost Of Sailing Vessel

In these days, when sail is fast vanishing from the seas of the world, every sailing ship is romantic, but there is a special romance attached to the "John Williams V," a three-masted sailing vessel, with auxiliary Diesel engines, that recently sailed from London for the South Sea. The "John Williams V" has been built for the London Missionary Society, practically the whole of her cost being met by the pennies contributed by children in the Congregational Churches of Britain. It is named after a pioneer missionary who was murdered in the New Hebrides. There are quite a number of missionary ships in various parts of the world, one of the most famous being the "Strathcona II," in which Sir Wilfrid Grenfell visits the settlements on the bleak Labrador coast on his errands of mercy. The "Strathcona II" is a hospital steamer, and her annual cruises are among the most notable examples of practical Christianity in the world today.

### Users Of Canadian Lime

The principal consumers of Canadian lime are the chemical and metallurgical industries, pulp mills, and the building trades.

### Died From Exposure

Coroner's Jury Brings In Verdict In Connection With Death Of Capt. Burke

Capt. E. J. A. Burke died from starvation and exposure according to a verdict returned by a coroner's jury at White Horse, Yukon. Burke, with two companions, Emil Eiding and Bob Martin, disappeared in October while flying in the Liard River district. They began to mush towards civilization, but Burke collapsed and died November 20. His two companions were finally rescued and brought to White Horse by Pilot E. L. Watson, and Joe Walsh, a prospector, on December 10.

To its finding the coroner's jury added a rider recommending that in future "planes in passenger British Columbia should be equipped with sufficient food in concentrated form to last for a reasonable period of time, a life and 50 pounds of ammunition and snowshoes for each member of the plane crew. The jury also recommended that pilots be instructed in woodcraft.

### A Sinister Date

October Sixth Has Prominent Place In British Politics

One of the most sinister dates in modern politics is October 6th. Have you ever seen the list? On October 6th, 1881, Gladstone denounced Parnell, and on October 6th, 1891, Parnell died.

On October 6th, 1891, Parnell died. Rosebery retired from the leadership of the Liberal party, and on October 6th, 1909, he resigned the presidency of the Liberal League. On October 6th, 1891, W. H. Smith died while leading the House of Commons. On October 6th, 1903, Joseph Chamberlain opened his disastrous tariff reform campaign with his Glasgow speech.

## Danger from Colds

Every woman beyond middle age should realize that a majority of the troubles she has to fear have their origin in what are known as common colds. Each attack lowers her vitality and reduces resistance to disease. At this season of the year every woman should see that her blood is toned up to meet the rigors of the climate and especially that strength should be restored after any cold, however slight.

For this Dr. Williams' Pink Pills are a reliable tonic. These Pills are not a mere stimulant giving temporary relief. They build up the body by creating that rich red blood which imparts the glow of health, steadies the nerves, improves the appetite and digestion and makes the system capable of withstanding the rigors of our Fall and Winter months. They are sold by medicine dealers or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

### Her Day's Work

Miss Kate Ralph of Cromwell, Conn., rose at 5:30 a.m. to do the chores of the thirty-acre farm which she operates, walks three miles to a toy factory where she has worked for forty-six consecutive years, and on her way home does her housework along the newspaper route which she started twenty-five years ago. And she has just celebrated her eighty-second birthday!

Persian Balm creates and preserves lovely and youthful complexion. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft. Unrivaled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the daintiest of women. Persian Balm is the one toilet requisite for the exacting woman. Peerless as a beautifier.

### Moose Jaw Postal Revenues

Revenue from the post office in Moose Jaw for the fiscal year ended March 31st, 1930, reached a total of \$134,986, according to the Postmaster-General's annual report, and the "Optimist" notes that in the list of earnings of all post offices in the Dominion, the Moose Jaw office takes 19th place.

### North American Gold

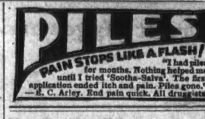

Ten years ago the gold output of the United States was three times as great as that of Canada. Today chiefly owing to the increase in Canada, the two countries produce almost equal quantities.

### Develop Manitoba Mine

Canadian and United States financial interests have combined to bring to production Gem Lakes Mines, Ltd., a gold property in southeastern Manitoba. It was announced recently by W. S. Kieckhefer, president of Gem Development, will start immediately, with nearly 200 men employed.

### Spirit Of Conan Doyle

Her profound conviction that the spirit of Sir Arthur Conan Doyle is deliberately lingering near earth in order to help those still living, was expressed by Lady Doyle. This conviction she said, was based on messages she herself had received from her dead husband.

### Plan Canadian-U.S.

#### Air Line To East

To Carry Mail and Express Via Alaska and Russia To China and Japan

A direct air mail and trade route to China and Japan through Alaska and Soviet Russia is the next big objective of the Post Office Department. Mutual operation of this route by Canada and the United States is the aim.

Assistant Postmaster Glover reported the Post Office departments of both Canada and the United States had given the proposed line to the Far East careful study, and had agreed they had no intention to "stand idly by" and permit this opportunity for a direct hook-up with the Far East to be supplied by other countries.

The mass of mail available for such a run, he contended, would justify its establishment, since letters from Great Britain to the Far East would reach China and Japan two weeks earlier thereby.

Glover said the extreme cold would not deter aviation. "Canada is now flying the mails at 20 degrees below zero when there's six feet of snow on the ground, with more night-flying, less delays than we have. There's your answer, said Glover.

He added that a great number of small packages also would be sent to the Orient by air mail.

### Recipes For This Week

(By Betty Barclay)

#### PIN WHEEL BISCUITS

2 cups special cake flour, sifted.  
 4 teaspoons baking powder.  
 ½ teaspoon salt.  
 4 tablespoons butter or other shortening.  
 ½ cup milk.

4 tablespoons butter, creamed.  
 ½ cup brown sugar.  
 ¼ cup pecan meats, chopped.

Slit flour once, measure, add baking powder and salt, and stir again. In shortening. Add milk gradually until soft dough is formed. Roll ¼ inch thick on slightly floured board. Spread with creamed butter; sprinkle with brown sugar and nuts. Roll as for jelly roll and cut in 1 inch pieces. Place in greased muffin pans cut-sides up. Bake in moderate oven (375 degrees Fahrenheit) 30 minutes. Makes 12 biscuits.

#### MOLDED FRUIT SALAD

1 package lemon flavored gelatine.  
 1 pint boiling water.  
 6 slices canned pineapple, diced and drained.  
 2 tart apples, pared and diced.  
 2 bananas, diced.

Dissolve gelatine in boiling water. Pour small amount into mold. Chill until firm. Add fruits. When remaining gelatine is slightly thickened, pour over fruits. Chill until firm. Unmold on lettuce. Garnish with mayonnaise. Serves 8.

### University Of Alberta

The enrollment of students at the University of Alberta this year is larger by about 75 students than last year, according to Dr. E. G. Wallace, president of the university. The attendance is over 1,600, and is continually growing.

### Every Careful and Observant Mother

knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

### Develop Manitoba Mine

Canadian and United States financial interests have combined to bring to production Gem Lakes Mines, Ltd., a gold property in southeastern Manitoba. It was announced recently by W. S. Kieckhefer, president of Gem Development, will start immediately, with nearly 200 men employed.

### Spirit Of Conan Doyle

Her profound conviction that the spirit of Sir Arthur Conan Doyle is deliberately lingering near earth in order to help those still living, was expressed by Lady Doyle. This conviction she said, was based on messages she herself had received from her dead husband.

It isn't so much what a man thinks, but what he does that counts.

### Many Unclaimed Medals

Experiment Of National Defence Has Large Number Still On Hand

The number of medals in the custody of the records branch of the Department of National Defence is gradually diminishing, but the number on hand is still large. The present addresses of many of the men who served in the Great War and who are entitled to the medals are unknown. Of the 68,104 "1914-15 stars" received for distinction, 1,680 still await claimants. Over 200 were issued in the past year.

A total of 415,545 British war medals were distributed for members of the Canadian expeditionary forces, and of these 55,932 are still unissued.

The records branch has found it impossible up to the present to locate 33,224 men entitled to the victory medal, out of a total of 340,245 that were earned. Of these medals, 5,861 were disposed of during the last twelve months.

### Ice From the Tropics

Product Of Carbon Dioxide Found In Oil Fields Of Mexico

And now they're importing ice from the tropics.

It is a product of carbon dioxide gas trapped in wells of the Tampico, Mexico, oil fields; flowing to the surface at a pressure of 1,000 pounds to the square inch. The information is contained in a bulletin of the United States navy department's bureau of engineering.

A New York concern has erected a factory which solidifies the gas into "sub-zero" ice. It has a capacity of 40,000 pounds a day. Vessels with insulated chambers of cork board and foot-thick will bring the ice to the United States.

### Retires From Board

Col. Vien, K.C., Severs Connection With Board Of Railway Commissioners

Col. Thomas Vien, K.C., deputy chief commissioner of the board of railway commissioners for Canada, announced his retirement from the government service. He plans to resume his law practice in Montreal.

Col. Vien was active in politics before he was appointed to the board of railway commissioners five years ago. He represented the constituency of L'Orignal, Quebec, as Liberal member for several years. He was elected first for that riding in 1917, and was re-elected in 1921.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil may always be in every medicine chest ready for the emergencies that may always be anticipated.

Counters and dice used in an ancient game have been unearthed in Palestine at ruins of a city 3,500 years old.

Rayon and cotton upholstery fabrics are being made waterproof for use in automobiles and porch furniture.

## Magnesia Best for Your Indigestion

Most people who suffer, either constantly or chronically, from gas, sourness and indigestion, have never discovered disagreeable taste, stomach troubles, medicines and artificial stimulants. Instead, take a teaspoonful or four tablets of **Illustrated Magnesia**, after meals or at bedtime. They are able to eat as they please and they enjoy much better health. Those who use **Illustrated Magnesia** never dread the approach of meal time because they know this wonderful anti-acid and food corrective will not only neutralize the stomach acidity, avert the stomach, prevent food fermentation, and make digestion easy. Try this plan yourself, but be certain to get **Illustrated Magnesia**, especially prepared for stomach use.

### Growing Industry In Britain

Electrical Trade Is Carrying Competition Into Foreign Lands

Obsolete machinery and out-of-date methods are often advanced as reasons why British factories run at reduced times and with depleted stocks. But there is one industry which does not fit into that discouraging picture. The British electrical trade is not only meeting foreign competition but carrying competition into foreign lands.

The United States and Germany are Britain's chief competitors in this field. United States exports of electrical goods have dropped ten per cent. and Germany exports five per cent. in 1929, as compared with 1928. Unemployment in electrical trades in the United States stands at 25 per cent., and in Germany at 30 per cent. British factories are working full time with full staffs, and by the close of the year it is anticipated that Britain will lead the world as an exporter of electrical goods.

Recently a large contract in Copenhagen was captured by a British firm under the very nose of German competition; while a Newcastle firm has demonstrated that it is possible to do a very good business in the United States in spite of the high tariff wall. The reason that is given is that British producers are five years ahead of their competitors in technical and scientific development. In certain kinds of electrical gear a virtual world monopoly is being created.

Electrical goods and appliances were the only British manufactures to show an increase in exports in September. This trade has blazed the way out of the slough of unemployment.

### Canadian Newspaper

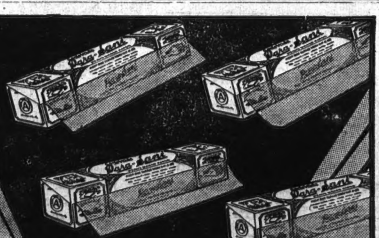

Newspaper paper made up 85.2 per cent. of the total reported tonnage of paper manufactured in Canada in 1929. The amount was 2,725,351 tons as compared with 2,414,393 tons in 1928.

The oldest Egyptian mummies are almost 5,000 years old.

## PREMIER BENNETT IS OPTIMISTIC FOR THE FUTURE

Calgary, Alberta.—Out of the present time of economic suffering has come the finest proof of the world's progress, for nations and individuals have stood together in a common determination to fulfill their obligations to humanity. Rt. Hon. P. B. Bennett, prime minister of Canada, said here in a New Year's Day address.

Mr. Bennett spoke with optimism of the future and expressed his conviction that the clouds of depression were about to disperse. Canada, because of its great resources, was possibly more fortunate than other countries, but all Canadians hoped the property they anticipated for their new country would extend to the world at large.

Peace and good-will in the international sphere and a more equitable distribution of liabilities in the domestic sphere were the prime requisites of future progress, said Mr. Bennett.

"Throughout the year now ended," he said, "great storms loomed threatening have swept the industrial firmament. Before their onslaught the world has paused in the depression of which this old world has record.

"Just as one nation has had to bear a greater burden than another, so within each nation have some classes been called upon to endure a degree of privation which others have been spared, at least that is the case in Canada. Why it has been so is not difficult to explain. Those enterprises whose welfare lies primarily within our own control have known little trouble when compared with such as look for their main support to the world at large. In saying this, I simply desire to make it known that no burdens which we can share together will be cast on any single class or section of the country.

"Conforming to our conviction that unity in prosperity also means unity in adversity, we are moving towards a more equitable distribution of our resources and by the use of our power are preparing to continue the advance along the way which, through rapidly dispersing clouds, lies straight before us."

## Centralized Wheat Selling

World Wide System Of Buying and Selling Is Foreseen

Winnipeg, Man.—World wide systems of buying and selling wheat are foreseen as possibilities by George H. Williams, president of United Farmers of Canada (Saskatchewan section).

Leader of the strongest bloc of opinion in favor of the 100 per cent. pool, Mr. Williams, in a statement to the Canadian Press, cited the Federal Farm Board as tending toward one selling agency in the United States and the proposed British quota-buying plan as a germ of possible future policy of the whole wheat-selling and wheat-buying world.

"Many countries are of the opinion that the future solution to the problem of marketing agricultural products, particularly wheat, lies along the line of concerted action," Mr. Williams stated. He declared that today such nations as Italy, France, Germany, Russia, and Poland, are very definitely working towards centralized selling. For years there has been 100 per cent. pooling organizations in New Zealand and New South Wales and Australia threatens to fall in line.

The step to a 100 per cent. pool for the quarter-million farmers on the Canadian prairies is a short one, he believed. A total of 50 per cent. of the Western farmers are at present pool members. They enter by voluntary contract but, "by altering the method of agreement from that of contract to that of ballot, and by including the principle of democratic rule, it is only a short step from the present voluntary contract to the 100 per cent. legislative pool," the farm head explained.

Good Market For Ayrshires

Ottawa, Ont.—The Royal Winter Fair still maintains its reputation as being not only the great show window for Ayrshire breeders but also as one of the best market places for Ayrshire cattle," says a report of the Canadian Ayrshire Breeders' Association which gives the detailed results of the success achieved by this breed of cattle.

W. N. U. 1871

## Governor-General Taking New Position

Willingtons Leaving For India Via England On January 10

Ottawa, Ont.—Announcement that the Governor-General and Viscountess Willingtons will leave Canada for England, and subsequently for their new post in India, on January 10, has been made at government house. Their Excellencies will leave Ottawa by special train at noon on Wednesday, January 14, for Saint John, N.B., there to board the steamer "Montclair" for England. The journey to Saint John will be broken at Quebec where their Excellencies spent several summers, and where they may attend a reception.

Accompanying their Excellencies will be E. C. Miville, governor-general's secretary, and Mrs. Miville, Capt. R. J. Strickland and Lieut. D. H. Fuller, R.N.

Mr. and Mrs. Miville will go to India with their Excellencies. As a consequence of his early departure for England, the last official function of the governor-general in Ottawa was the levee held in the senate chamber of the parliament buildings at noon on New Year's day.

## Baldwin's New Year's Wish

Hopes That Labor Government May Come To Speedy and Unlamented End

London, England.—Rt. Hon. Stanley Baldwin's "best and most cherished" wish for the New Year is that the present government may come to a speedy and unlamented end," he wrote recently in a 1931 message of greeting to the people of Great Britain.

In his message he outlined Conservative plans for remedying economic conditions with an emergency tariff for the protection of manufacturers, a guaranteed price and a guaranteed market for British wheat and a scheme for the development of Empire trade.

"When the general election comes," he wrote, "and I am of the opinion that it won't be long despite the Liberal plot to keep the Socialists in power, we shall make an immediate beginning on a policy to help the progress of national recovery."

## Shareholders To Meet

Emergency Meeting Of Shareholders Of Hudson's Bay Company To Be Held January 10

London, England.—An emergency meeting of the shareholders of the Hudson's Bay Company will be held on January 10, to consider the report of the special committee investigating affairs of the company for the last five months.

This report, according to the Daily Herald, will show little prospect of the company being able to pay dividends on either preference or common shares for some time to come.

The Financial Times draws attention to the proposal to segregate the Canadian assets of the company by formation of a Canadian company registered in Canada. The committee also suggested a cut in the value of the company's directors.

## Canada's Farm Loans

Over Seven Million Distributed Within Two Years

Ottawa, Ont.—At the end of the present fiscal year on March 31 next, when the organization will have been functioning a little less than two years, the Canadian Farm Loan Board will have disbursed nearly \$7,000,000 in loans to farmers in six provinces of the Dominion, according to Dr. J. H. McLean, chairman of the board. Up to the present the average loan has been a little over \$2,000, and it is pointed out by Dr. McLean that back of the \$4,428,000 loaned up to the end of September, the government has securities in the form of lands and buildings valued at about \$16,000,000.

## Four Corned Fight

Edmonton, Alberta.—Four candidates were nominated here for the Edmonton seat in the provincial legislature made vacant by the death of Colonel C. Y. Weaver. Those in the field are: Colonel F. C. Jamieson, Conservative; Captain J. C. Bowden, Liberal; Elmer Roper, Labor; Jan. Lakeman, Communist.

## Report Is Denied

Montreal, Que.—Denial that the Canadian National Railways contemplates any immediate new construction work at its Port Arthur lake terminus was made by S. J. Hungerford, vice-president, in charge of operation and construction.

## BIG CORPORATION TO BE CREATED TO AID FARMERS

Regina, Sask.—Before an interested audience of fully 8,000 people here, Premier Bennett delivered a message of hope to the people of Western Canada. Mr. Bennett's address was mainly directed to the farmers of the prairies. As a westerner himself, he declared, he was keenly alive to their problems and was determined to solve them and at the same time promote the national interests of Canada as a whole.

He reviewed the activities of his government since assuming office in August, the steps taken to relieve unemployment, providing funds to speed up public works, the increased production afforded the Canadian producer by the revision, and the aid taken by the government at the Imperial Conference.

Financial difficulties of the farmers of Canada will be met by the creation of a private corporation, in which banks, transportation companies, industrial concerns, insurance and mortgage companies will be shareholders, said Mr. Bennett.

The primary object of the proposed Farm Finance Corporation is to assist farmers now engaged wholly or largely in the production of grain to launch out on mixed farming.

"In this regard," said Mr. Bennett, "the suggestion made a few weeks ago by Mr. E. W. Beatty, president of the Canadian Pacific Railway Company, is to be commended. A private organization having as shareholders the transportation companies, banks, industrial enterprises, insurance and mortgage corporations with a reasonable amount of capital, and a revolving loan fund, will meet the necessities of the situation.

"A class of business will be transacted in which the banks cannot engage, and local supervision will ensure a minimum of risk. In the United States where the loan capital was \$20,000,000 the losses of a similar organization over a considerable period of time were but \$27,000."

The fact that the marketing of wheat at present prices would still leave many farmers in difficulties called for the attention of the government, said the premier. The government was therefore going to assist the provinces in providing relief. "No citizen of this country," he said, "must suffer for lack of food, clothing, shelter or fuel. I would not have the wheat growers think it is our desire or intention to grant them more favorable treatment than any other class in the community will receive. We do not offer them charity for they do not want charity. What we offer them is that measure of relief which the circumstances of the case so fully warrant."

While fully alive to the immediate difficulties, the Federal Government was also occupied in finding permanent markets for Canadian farm products. These efforts were directed along three lines, protection of the home market, extension of trade within the empire and revision of most favored nation treaties with foreign countries.

"Our minister of Japan, Hon. H. H. Macdonald," he said, "I hope at this very hour on his way to China to discuss with the government of that great country the purchase of millions of bushels of our wheat. Nor will the government hesitate, if necessary, to assist by providing credit facilities and by other means in its power the establishment of

## MAKES CONTRIBUTION TO SCIENCE

Dr. E. F. Burton, professor of physics at the University of Toronto, who, in collaboration with Arnold Pitt, assistant demonstrator, has invented instrument for rapidly measuring quantity of moisture in humus and other bodies.

so invaluably valuable a channel of trade."

With European countries speeding up their grain production it was obvious Canada would have to look to the Orient for a market, Canada had the goodwill of the Orient and the government was prepared to capitalize it.

With regard to his negotiations with France, Mr. Bennett said the existing duty on wheat was practically prohibitive. Since his meeting with the French government the government had been defeated; but despite this he had advice that France would guarantee to buy a substantial quantity of Canadian wheat.

"This is the first time in the history of France that such a guarantee has been given," he said. "The best information we are able to obtain indicates the actual purchase of Canadian wheat by French millers during the current grain year may reach over 20,000,000 bushels."

The government had pledged itself to a great transportation program, said Mr. Bennett. Freight rates were lower in Canada than in the United States. But while other countries had reached minimum rates Canada had not. With the development of aids to existing traffic channels, rates could be made lower and the government proposed to develop these aids. Work on the Hudson Bay Railway was proceeding with all possible speed and the government was engaged on a thorough survey of the whole scheme of transportation with a view to a reduction of existing freight rates.

## Will Return To Australia

Sydney, Australia.—According to the Canberra representative of the Sydney Sun, Hon. H. H. Macdonald, Australian minister of markets, has curtailed his present visit to Canada and will rush back here to attend the party meetings before the opening of the new parliamentary session. The session will probably be by far the most important in the history of the Labor administration of Prime Minister James Scullin.

## Buried In Northland

Atlin, B.C.—Capt. E. J. A. Burke was buried Monday, Dec. 29, in the little graveyard here where other pioneers of this northland sleep. Thus was written the last chapter of an epic of the north which for months had held the interest of thousands in the outside world. Burke died November 25 of exhaustion and starvation while lost with two companions in the Liard River district.

## HAD NARROW ESCAPE

Miss Winifred Spooner, British aviatrix, while attempting to break all previous records by flying from London, England, to Cape Town in four days, had a narrow escape from death when her plane crashed into the sea off Belmonte Calabro recently. Miss Spooner, who was unhurt, swam ashore, more than a mile, and obtained aid for her co-pilot, Captain Edwards, who was slightly injured. The plane was salvaged and towed into port at Belmonte Calabro. Photo shows Miss Spooner posing from wreckage after it was towed ashore.

## Observatory For Toronto

One Of the Finest In the World To Be Erected In Eastern City

Toronto, Ont.—An astronomical observatory which will be one of the finest in the world, will be erected in Toronto in the near future, according to an announcement to the Canadian Press recently, by Prof. C. A. Chant, head of the Department of Astronomy, University of Toronto. The observatory will be erected by Mrs. D. A. Dunlap, and her son, D. Moffat Dunlap, as a memorial to the late David Dunlap, who died six years ago, and will be known as the "David Dunlap Observatory."

The outstanding feature of the observatory will be a large reflecting telescope 74 inches in diameter. There is only one of greater aperture in the world, that on Mount Wilson, in California.

## The Lowly Pedestrian

Has Equal Rights With Motorist On Highway, Says Judge

Montreal.—The humble pedestrian has found a champion in Chief Justice Greenbush, who, in rendering judgment in an automobile accident case, stated emphatically that a motor vehicle or vehicle of any kind had no superiority or right of way over "those unfortunate enough or perhaps I should say lucky enough, to use their feet as a method of locomotion. The pedestrian may at all times make use of the highway and every part thereof restrained by municipal legislation."

## PREPARE FOR STRUGGLE OVER FREIGHT RATES

Winnipeg, Man.—For a freight rate battle of the future, Manitoba farmers today are lining up a solid front. It will be an agrarian body that first opens fire at Ottawa for a suitable rail and ocean freight rate on the Hudson Bay route to world markets.

Prepared to struggle with a foe, designated as "big interests" in the east, United Farmers of Manitoba are seeking signatures of every farmer in the province to a petition which will be presented to the Dominion government.

"The port of Churchill, in far north Manitoba, will mean a saving of 'millions of dollars' to western farmers if the Crown's Nest basis of freight rates are secured. If ocean freight rates are placed 'on a comparable basis with ocean rates at Montreal,' and if a fair basis of rates on general merchandise, such as binder twine, window glass, and paint, from Churchill to all southern Manitoba points is secured, says the petition. But the U.F.M. recognizes opposition.

"Powerful financial interests, centered in the competitive ports of Montreal, Quebec, Saint John and Halifax," will oppose the west's demand for a low grain rate basis, equal to the Crown's Nest rates, the petition anticipates. Large shipping firms at the Atlantic seaboard will combat any move to effect low ocean rates from Churchill.

The farm body also will ask for a "substantial reduction in the present prohibitory marine insurance rate" from the Hudson Bay Port, of 5 per cent.—"which means approximately 5 cents per bushel on wheat." The present insurance rate would alone kill the successful operation of the route, so far as any financial benefit to Manitoba and Saskatchewan farmers is concerned, asserts the petition.

"Maintenance of this excessive marine insurance rate and the maintenance of high ocean rates from Churchill is the aim and object of powerful transportation, financial and manufacturing interests centered in eastern Canada. Their determination being to arrange through transportation rates on our export farm products and our import farm necessities, on such a high basis as will equal the present cost of transportation via the ports of Montreal, Saint John or Halifax."

Once the port of Churchill is opened, the petition declares, it will be "many years" before the freight rates are changed. Thus, farmers of the west must present their demands to Ottawa in good time. "The fact that Idewater will never be nearer to Manitoba than it is at Churchill, is full of significance to us, and it is, therefore, exceedingly important that we join in this well directed effort to increase the prosperity and the purchasing power of the producers of the prairie provinces," the farm unit's petition urges.

## SIR GEO. PERLEY IS APPOINTED TO PRIVY COUNCIL

London, England.—Four new peers, three privy councillors, five baronets and 30 knights constitute the most notable of the creations in the New Year's honors list, announced last night. The most interesting award from the Canadian angle is the conferring of a privy councillorship upon Hon. Sir George Perley, which is regarded as recognition of Sir George's labors as acting prime minister of Canada during Premier Bennett's absence at the Imperial Conference.

Sir George Perley was created a Knight Commander of the Order of St. Michael and St. George in 1915, when he was in London as High Commissioner and his labors were largely associated with the arrival in England of the vanguard of the great Canadian army which was sent to the field during three years.

None of the four peers owes his elevation to obvious sympathy with the present Canadian political views and in this fact the prophets are confounded again as their prediction went astray a fortnight ago over the nomination of the Viceroy of India. The new peers are Sir John Scott Huxley, commercial adviser to the Department of Mines; Sir Ernest H. Lamb, one time Liberal member of the House of Commons and a member of the city of London corporation for a quarter of a century; Sir William Plender, chartered accountant and eminent financial authority, and Sir Ernest Rutherford, chairman of the advisory committee of scientific and industrial research.

Among those created members of His Majesty's Privy Council are Thomas Kennedy, M.L., parliamentary secretary to the treasury, and Hon. Herbert Morrison, minister of transport.

Baronets are conferred upon Sir John Rose, of Bradford, president of the Royal College of Physicians; Ernest Ridley Debenham, director of Lloyd's Bank; Sir Richard Araman George, eminent astronomical authority; Sir George Ernest May, secretary of the Trustee's Assurance Company; Sir George Borchers, who, under the disguise of "Auldac," made princely contributions to charity.

## Attend Funeral Of Comrade

Members Of Crew Of R-100 Honor Sir George Perley

London, England.—Members of the crew of the airship R-100 attended the funeral of Granville Watts, who had declined an offer to become a member of the crew of the R-101 on that vessel's ill-fated air voyage to India, which ended in disaster and the loss of 48 lives. Watts was not satisfied with the airship's condition. He was fatally injured in a motorcycle collision recently.

Watts had been aboard the R-101 on the R-32 when she crashed on Mount Ararat; on the R-32 when she broke her moorings in a storm and drifted for thirty hours; and on the R-100 when she crossed the Atlantic to visit Canada four months ago.

## Free Entertainment For Blind

Toronto, Ont.—Captain E. A. Baker, general secretary of the Canadian National Institute for the Blind, announced that arrangements have been made with the directors of the Famous Players Canadian Corporation, Limited, to admit free, blind people of Canada, together with sighted escorts, to all theatres operated by the corporation throughout Canada.

## Harvesting In Alberta

Lethbridge, Alberta.—Something new in winter harvesting was reported December 30, from the thousand-acre Smith farm, five miles east of Lethbridge. Three combines were at work completing the harvesting which was started last August. The grain is perfectly dry and of fairly good color. The grain is averaging about 50 bushels per acre.

## Repays Old Debt

Malone, N.Y.—Thirty-seven years ago Walter W. Jarvis, 66, Malone farmer, and David Knight, 65, were stranded on the western plains of Canada. Jarvis loaned his companion \$50 in order that the two could go to Montreal. They separated and recently Knight surprised Jarvis by walking into his florist shop and settling the debt.

## Ontario Town Holds Record

Hesper, Ont.—This town upheld the tradition of 30 years without a mayoral election. When nominations for the office were called, the prospect was far from promising to E. H. Waver's candidacy. All other offices were also filled by acclamation.

## Your Boy!

In your boy's future money must play an important part. The possession of it may mean success; the lack of it, failure. Your experience tells you what he cannot know—the value of money saved. You can give him a precious asset—the habit of saving. His first thousand dollars may mean a lifetime of success.

## Local and General Items

Civic elections take place at Fernie on Monday next.

Miss Jean Kerr is home from Calgary on a holiday visit with her parents.

A Fernie man calls his wife Plumber, because she is always forgetting something and has to go back after it.

Princess Louise, eldest sister of King George, died at London on Sunday afternoon at the age of sixty-three.

On New Year's Day, the Edmonton Superiors defeated Turner Valley-Oktoks Imperials 2-1 in an exhibition game.

Nick Carmelo, who for a number of years has farmed in the district south of Cowley, has moved with his family to Coleman.

George Hood, of Edmonton, has been the guest over the New Year of his mother, Mrs. Hood, and sister, Mrs. J. McPhail here.

First Aid classes will be resumed on Sunday next, in the West Canadian general office, at 11 a.m., following the festive holiday season.

The Fernie Free Press announces that "N. F. Brand talks ants." Many a man in Blairmore at the same time was discussing "Mother-in-law."

Some folks are content to go through life on their wishbone; others work their way through on their jawbone—but the real man is the one who pushes his way through on his backbone.

Mrs. Edith Sarah Gilhooly, wife of Alexander Gilhooly, of Calgary, and mother of Miss Winnifred Gilhooly, well-known secretary of the Provincial Girls' Work Board, died at Calgary on Saturday last.

For anyone who so early in the season requires something to argue about, I herewith append the star line-up of the league: Blaney, Buchanan, Wainman, Shaw, Dickson, McVey and Kemp; Wright, R. Bentley, Mackie—Calgary Albertan.

The largest crowd of spectators and rooters for the season witnessed Blairmore going down to defeat, 7-5, before Coleman last night at the local arena, in the opening game of the second section of 1930-31 schedule for the Crows' Nest Pass League. Ice was in excellent condition and the game throughout was fast and fully tested the best efforts of the referee to control. These two teams meet at Coleman tomorrow (Friday) night, when a record house is promised.

The Pass Junior Cubs wish to thank the following for subscriptions to wards their funds: G. A. Vissac, J. Charbonnier, \$10.00 each; R. C. Old, L. L. Morgan, W. Goddard, \$5.00 each; J. R. Smith, J. E. Gillis, J. P. Smith, \$2.00 each; D. Emery, S. McDowell, H. Pinkney, F. M. Thompson, A. R. Granger, H. M. Bennett, Mark Sartoris, P. Chardon, W. L. Evans, J. H. Farmer, J. A. Kerr, G. Steeves, H. Griesbach, James Milne, W. A. Beebe, B. Green, W. J. Bartlett, H. Zak, \$1.00 each.

At the regular fortnightly meeting of the town council on Monday night, a number of applications for relief work were considered, and in order to provide additional work, the council decided to have gravel removed from the river bed for street travelling purposes. A number of accounts were passed for payment and A. J. Kelly was appointed returning officer to conduct the forthcoming municipal elections. We understand that four vacancies, including that of mayor, are to be filled on the council, and three on the board of school trustees. Those retiring from the board will be Chappell, McDonald and Tompkins.

### A NEW YEAR ADVENTURE

Another New Year is with us. May it prove a happy one to us all. We can all make the New Year worth while if we only set about doing it in the right way. We can use it to our profit if we will make up our minds to get rid of a lot of useless encumbrances that, weed-like, are hindering our mental growth and development.

I used to make New Year resolutions when I was younger—I do yet, as far as that goes—but not in quite the same way. I give them a little more consideration now, for I find that promises rashly made are easily forgotten. Many of us are apt to be carried away with a sudden conversion from old faults, and imagine that we immediately become new creations, and endowed with angelic attributes. But we don't. We've got to do something more than merely make promises. We've got to dump overboard all the old grievances and estrangements and selfishness and foolish ways and replace them with sympathetic and considerate understanding and worth-while friendliness. Then with love and kindness and good cheer in our hearts, with a smile and a song on our lips, with courage to help over the rough spots, may we press onward with new clean hopes and high resolutions to find the New Year one wonderful glorious adventure.—Ex.

WANTED To Rent Piano. Enquire at The Enterprise Office.

There's nothing like advertising to take the bun out and put the boom in business.

Thank Goodness! Lethbridge and Calgary have seen fit to get after "persecution" being practiced by police.

Tea and Pantry Sale in aid of St. Luke's church to be held at the home of Mrs. Tom Campbell on Friday, January 10th, from 3 to 6. Drawing for quilt will take place.

Elections held by the Local Union on Sunday last resulted in the return of Isaac Rae as president, Samuel Turner as vice-president, Evan Morgan as secretary-treasurer and Matt Leghti as recording secretary.

The very many friends of Mr. C. J. Tompkins were glad to see him out during the week end. His condition has improved rapidly of late and though yet somewhat weak, he hopes very soon to be able to settle down to business life.

Terrible! Terrible! The Lethbridge Herald reports that at Blairmore a man was fined \$20 and costs for having an "open bottle of liquor in a public place." Too bad this crime wave cannot be controlled! Makes one shudder to think of such desperadoes!

At the meeting of the Blairmore school board on Tuesday night, a very interesting discussion took place on the question of public libraries, following an interesting report submitted by Rev. J. W. Smith. At the next session of the Provincial Library Association, to be held shortly in Edmonton, Blairmore will have two representatives. Tenders were considered for furnishing twenty-five blinds for the central school, and the contract was awarded to the F. M. Thompson Co. A number of accounts were passed for payment. C. J. Tompkins was present for the first time since his accident of two months ago.

### IN MEMORIAM

In loving memory of James Harold Benson, who died January 10, 1928, at Michel, B.C.

The midnight stars shine on a grave, Of one we loved but could not save. Perhaps some day, we'll understand, When we meet him in the better land.

Ever remembered by his loving Mamma and sister.
